**Determining Risk**
*AUDIT Scores & Drinking Types*

The Drinkers’ Pyramid:

- **20%**: Types of Drinkers
  - High-Risk Drinkers
  - Low-Risk Drinkers
  - Abstainers

- **35%**: AUDIT Scores
  - 8-19

- **5%**: Probable Alcohol Dependence

- **40%**: Proportion of Population

**Something to think about:**

25% of the population will score an 8 or above on the AUDIT. That means 1 in 4 people are probably high-risk or dependent drinkers.
